

MMARANE KYI

Divine Law/Love and Divine Hate

Expansive and Contractive Poles of Divine Order

6-week online course

Divine Order is comprised of two Complementary Poles: Divine Law/Love and Divine Hate. The term, concept and function of Law is identical to Love in our Ancestral languages and cosmology. To be 'in love' with an individual is to be 'in law' with an individual. It means that your interaction with said individual is expressive of Divine Order. The term, concept and function of

Hate is rejection of disorder for the maintenance of the integrity of Divine Order. Through hate Divine Order is impressed upon all naturally Created entities for the preservation of Creation.

There are male and female Abosom (Deities) governing Divine Law/Love – Maa and Maat and governing Divine Hate – Heru Behdety and Sekhmet. These Deities uphold Creation and exist in all of our varied Ancestral cultures as Afurakani/Afuraitkaitnit (African~Black) people.

There is no understanding of Divine Order without understanding the Divinity of Law/Love and Hate and the Divinities (Deities) of Law/Love and Hate.

In this course Odwirafo examines the etymology and cosmology of Divine Law/Love and Divine Hate elucidated in his book **MMARANE KYI**.
